

UNIVERSAL PORTABLE POWER + BACKUP UPS

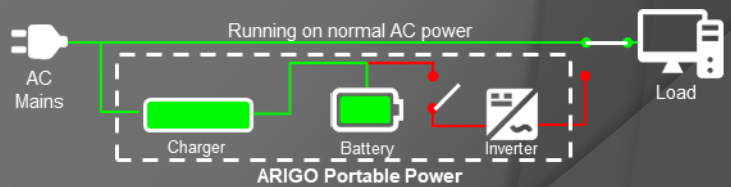

Pure Sine Wave
Lithium Ion (Panasonic)
AC220V + DC12V Output
USB Output

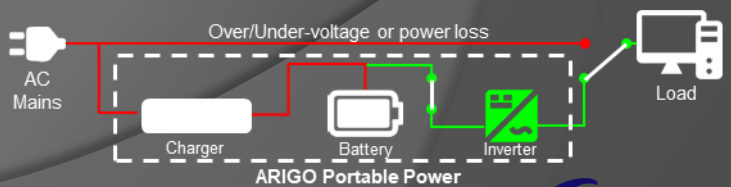

Suitable for:
Contractor site work
Remote camera surveillance
Server UPS backup
Off Grid Deployment

BUILT-IN UPS Function

When AC power source from the power grid is normal, electricity from the AC mains will be channelled to power the computer as well as to charge the APXXXX.

When electrical power from the AC mains is lost, the APXXXX will switch over to the lithium battery power to continuously provide power to the computer without disruption.

Using the most advanced lithium battery and inverter technology, the AP Portable Power offers a unique and simple solution to everyday power woes. Not only does it offer higher power with AC220V output function, it also features proprietary inverter technology where conventional inverter cannot match, promising high power output and better conversion efficiency.

MODEL	AP750	AP1000	AP1500	AP2000
CAPACITY	750Wh (12V70AH)	1000Wh (12V90AH)	1500Wh (12V135AH)	2000Wh (12V180AH)
AC INPUT	AC 90V – 250V 50/60Hz			
DC INPUT	24V, ≤200W	24V, ≤200W	24V, ≤200W	24V, ≤200W
AC OUTPUT	220V/ 50Hz		110V/60Hz	
DC OUTPUT	4 x DC 12V(2.5A x 4)		4 x USB 5V(1A,2.1A)	
AC OUTPUT POWER *	Rated : 1000W*	Rated : 1100W*	Rated : 1200W*	Rated : 1200W*
	Peak : 1200W	Peak : 1500W	Peak : 1500W	Peak : 1500W
CHARGE TIME	7Hr	9Hr	13Hr	18Hr
LI-ION CELLS	18650 PANASONIC 3200mah			
UPS	Switchover @ ≤ 20ms			
DIMENSION	370*192*168 mm	430*212*189 mm	430*212*224 mm	430*212*224 mm
WEIGHT	9.60Kg	13.30Kg	14.40Kg	16.50Kg

* Non Inductive Load only.

Examples of inductive loads – devices with built-in motors like fan, pumps, relays, transformers, electromagnets, drills, electric saw etc.
